NFT AUDIT AGENCY &
RESEARCH PLATFORM

https://radrugs.io

Your successful project starts here.

DATA-DRIVEN SERVICES MEET THE NFT WORLD

We bring together the creative elements of your project with our Web3 security framework to help you raise the level of quality before launch — and ultimately sell out.

We Help You Maximize Your Investment.

You work hard on your project. You believe in your vision. We do too.

We give you the data and tools required to stand out from the competition.

Improve Fundamentals

We help you identify potential weaknesses to improve your project.

Gain Community Trust

Doxxing and RadRugs recognition are a sign of trustworthiness.

Increase Brand Awareness

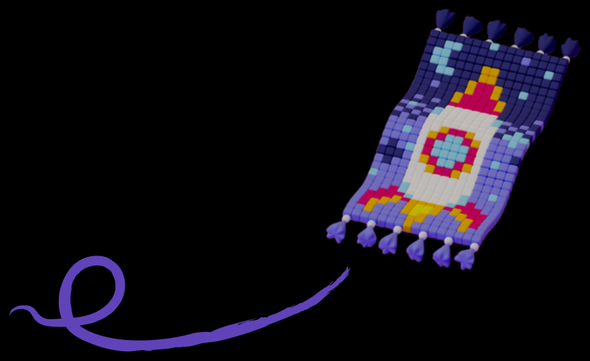
Our ecosystem is trusted and used by thousands of users every month.

Reach Your Target Audience

After more than 5 months in the scene, we know the marketing tools you need.

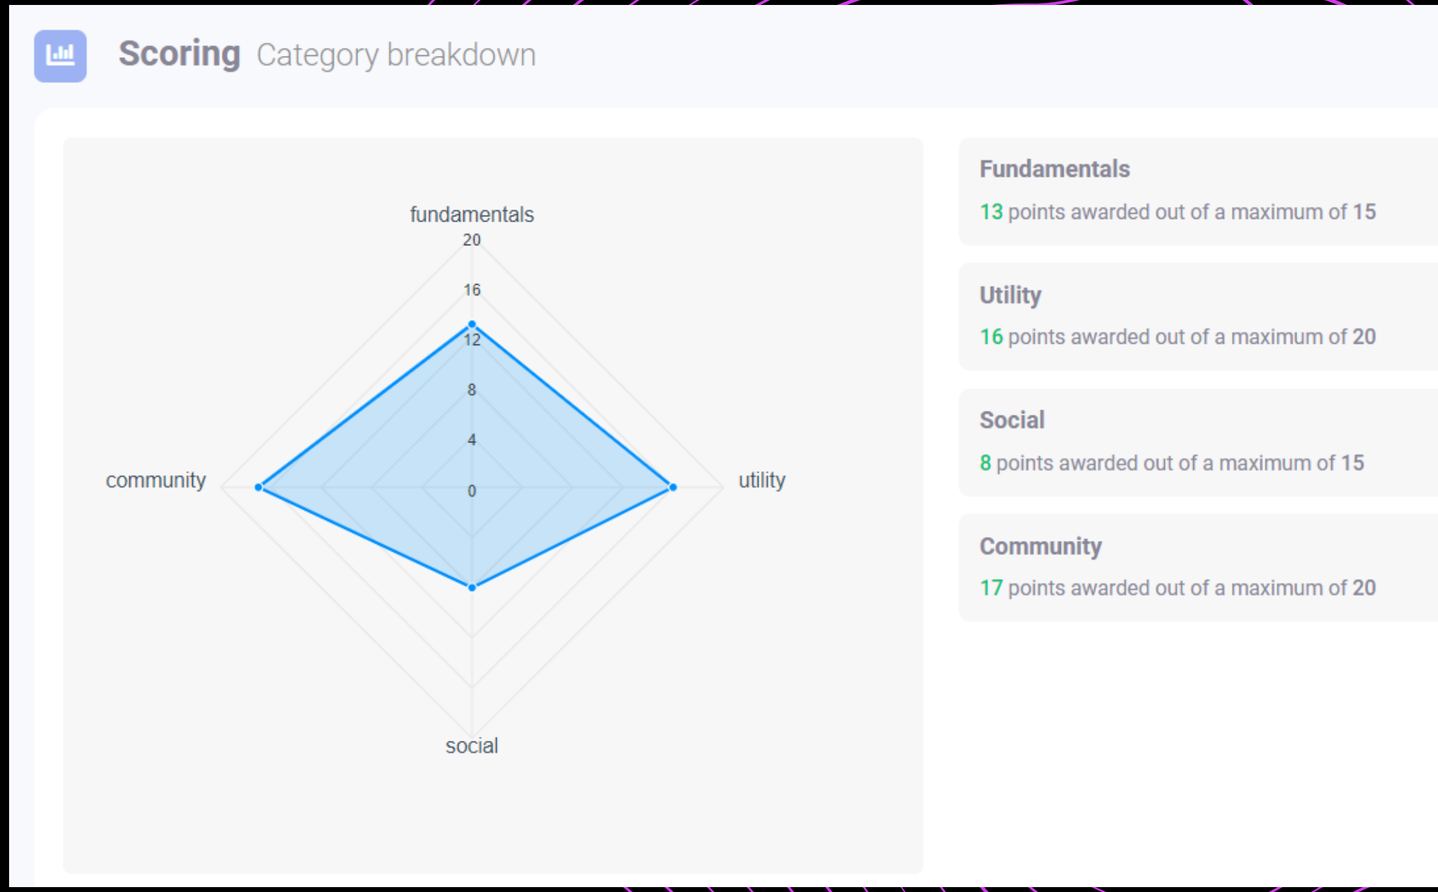
THE ROAD TO SUCCESS

70% of the projects that achieved a low-risk score minted out.



IMPROVE FUNDAMENTALS

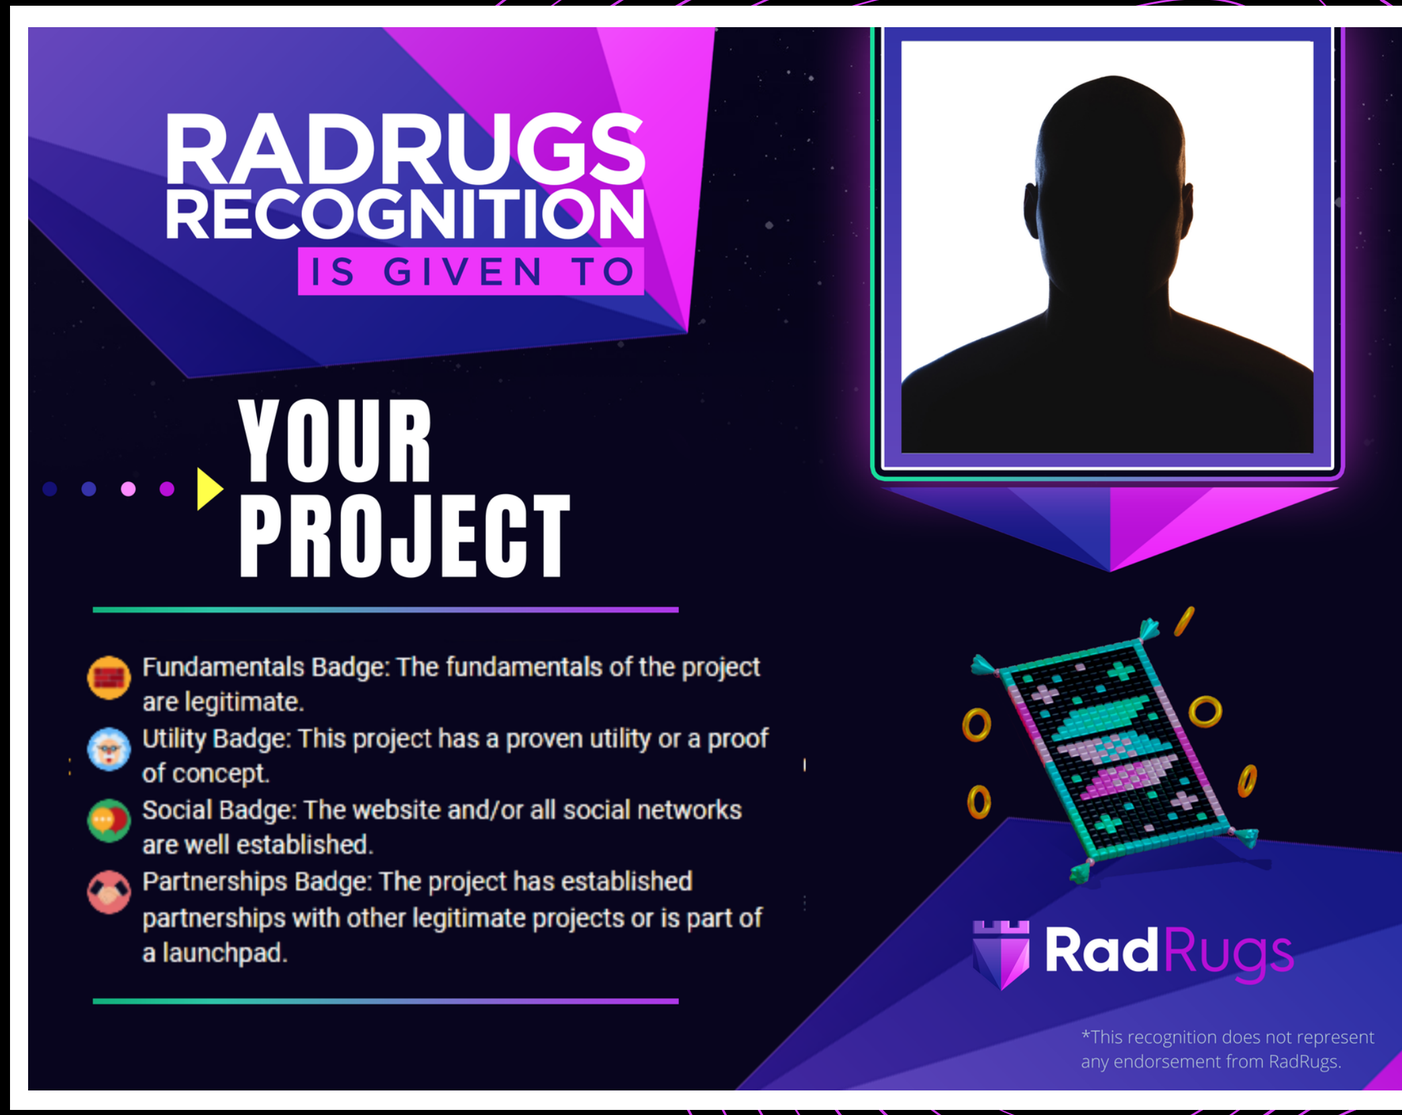
One of our dedicated NFT experts is assigned to your project and provides you with feedback, guidance, and advice to improve your project fundamentals and raise the quality before launch.



The app scoring system.

GAIN COMMUNITY TRUST

We know you want to sell out. Our doxxing and recognition services let the community and investors know that your project is serious, trustworthy, and has solid fundamentals and potential.

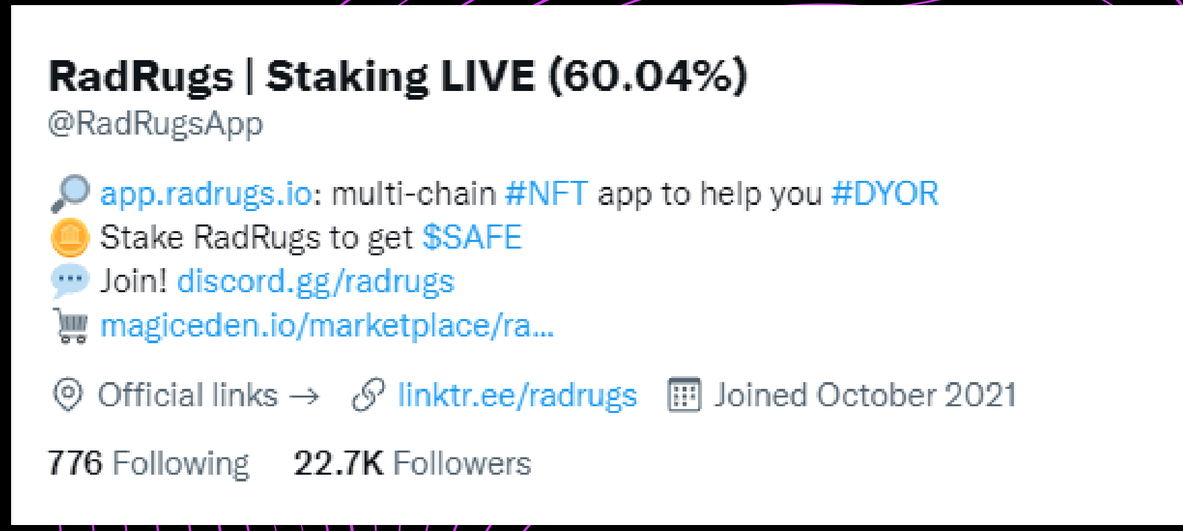


INCREASE BRAND AWARENESS

Dozens of projects are launching every week. Standing out from the competition is hard. We feature your project on the #1 DYOR Web3 application on the market, used by hundred of users on a daily basis.

REACH YOUR TARGET AUDIENCE

Getting recognized in the space is more and more difficult. You want investors to know that you exist. We have built a solid reputation on Twitter and a solid presence in the NFT space, and we will share your project with our followers.



Your advice was invaluable to us! Your review really gave us perspective on our project. It's the best money we spent so far.

RADRUGS PORTFOLIO

SUCCESS STORIES

There is a captive market for NFTs.

500+

Since January 2022, we have reviewed and coached more than 500 projects.

In 2020, the NFT market was valued at $100 million. At the end of 2021 this had increased by **220x** to $22 billion.

Fresh money is flowing into the market.

$250M

We have assessed more than 250M USD in marketcap.

The NFT market has skyrocketed in popularity to $22 billion globally in 2021 as digital images have been turned into significant investment opportunities.

TESTIMONIALS & REVIEWS

FloppyLabs | Minting Apr. 29 @FloppyLabs · 5m

We are excited to announce we just cleared @RadRugsApp review hurdle! Process and requirements are straight forward, team is good to work with due to clarity & responsiveness.

Join us in Discord, get that role, and mint starts on the 29th. LFG!!

Ngl the price seemed high when I looked at it first, but after the detail in the review radrugs provided, it's the best money we spent so far tbh.

Idk why I'm posting here about haha but I just wanted anyone lfr to understand that it's more than just a score

It's a perspective you didn't even know you were missing but on every level of your project

About to close the process and I literally have no constructive criticism for radrugs haha guess that's why it's their job! (edited)

I'm happy with it!

tony_congo Today at 1:50 AM

Hello everyone. Im a newbie in this project as well to NFT.

i would like to express i LOVE ❤️ this project.

As a newcomer to this world, it has been overwhelming. And as preached by the mods, new projects keeps on popping up and it is hard to keep track on which is legit and which is not

my discord was recently hacked when i clicked a random link. This really opened my eyes. And what you guys are offering is really good! Looking forward to great things from the team. Much love!
